KEEP OUT OF MEXICAN TERRITORY

War Department Issues Order to Commander of United States Forces Along Border

MUST AWAIT INSTRUCTIONS FROM WASHINGTON

Military Authorities at Eagle Pass Assurance by Rebel Commander That Piedras Negras Will Not be Destroyed and That Foreigners Will be Protected—Strong Guards Maintained at Both Ends of International Bridge.

Washington, Oct. 1.—Orders that no American troops be sent into Mexican territory at Piedras Negras without specific instructions from Washington, went from the war department today to Brigadier General Bliss, commanding the United States border forces. Full advice has been received from General Bliss and Consul Blocker concerning the critical situation existing at Piedras Negras as a result of the falling out between the constitutionalists and the advancing federalists, but the Washington administration is confident that there will be no developments to make necessary a departure from its settled policy of non-intervention.

Agree Not to Destroy Bridges.

As the result of several conferences between Consul Blocker, American troops at Eagle Pass, Texas, and the constitutionalist officers at Piedras Negras, it was arranged that the constitutionalists would not attempt to destroy either of the two international bridges here. This had been demanded of the American side, such as might be incident to the use of force to defend the bridges and keep them open.

Will Care for Wounded.

The instructions to General Bliss would not operate to prevent American troops from relieving any of the wounded who may be taken from the Mexican side, such as might be incident to the use of force to defend the bridges and keep them open.

No International Trouble Feared.

Regarding the disposition of the large number of fugitives who are being taken across the bridges at Eagle Pass, it was said at the war department that as many of them as bear arms are being sent to the United States, while the remainder are being held in the United States. It was said that the American military authorities while the immigration inspectors and customs officers will deal with the civilian refugees.

Department Officials Say That Situation at Piedras Negras, While Interesting, Is by No Means Serious, nor Does it Threaten to Involve Hostilities between the Americans and Mexicans at this point.

WONT DYNAMITE CITY.

American Commander Assured That Foreigners Will Be Safe.

Piedras Negras, Mexico, Oct. 1.—The city of Piedras Negras will not be destroyed and every protection will be afforded proper persons by the American and other foreigners in the anticipated hostilities between the constitutionalists and federal army.

Finishes Case Against Sulzer

PROSECUTION RESTS AT IMPEACHMENT TRIAL

HELD FOR REBUTTAL

Several Witnesses Subpoenaed, Not Yet Called Upon to Testify—Governor and Mrs. Sulzer to Testify.

Albany, N. Y., Oct. 1.—The assembly board of managers today rested their case in the trial of the impeachment of Governor William Sulzer. The high court then adjourned until tomorrow afternoon, when counsel for the governor will submit several preliminary motions for the court to decide before opening the case for the defense.

These disposed of, counsel will probably ask permission to take another adjournment by calling their first witness, T. S. Wines, the governor's secretary, whom counsel for the impeachment managers want to put on the stand although he was under subpoena. Sarecky endorsed many of the checks given to Sulzer during his campaign which were conducted in his sworn statement of campaign contributions.

Governor and Mrs. Sulzer to Testify. Both the governor and Mrs. Sulzer are expected to take the stand before the defense closes. The governor will defend his alleged speculative transactions with the Carnegie Trust company, and to see to prove that for the sole purpose of paying the loan the governor borrowed money from the stock exchange firm of Harris & Puleur on securities owned by her, and did not speculate with the firm.

Lieutenant Josephal Returns. Whether the long missing Frederick L. Colwell, the governor's alleged agent in his Wall Street transactions, will also be called as a subject of much speculation at the capital tonight. His whereabouts have been known to the governor's attorney, but he has declined to produce him unless it was stipulated that he would not be placed on the stand or being asked to obey a subpoena of the "rawling" committee. This counsel for the impeachment managers said tonight they were prepared to do.

Lieutenant Commander J. M. Josephthal, who paid a debt of \$25,752 contracted by the governor with Harris & Puleur, was expected to be another witness. He reached Albany tonight from New York, where he had been today from Europe. His testimony, it is understood, will be highly favorable to the governor.

Lawyer Hinman to Open Case. Attorney Harvey D. Hinman has been chosen to make the address opening the governor's side of the case, which is chiefly because Mr. Hinman, who has conducted most of the cross-examination, has become acquainted with the case. D. Cady Herrick, chief counsel for the defense, asked today that adjournment be taken until Monday. This request was denied by the court during an executive session.

The close of the case of the assembly managers today marked the close of the case of the impeachment of Governor Sulzer.

Colwell Said Account was Sulzer's. Many witnesses under subpoena, including William C. Cady, Henry H. Benson, and Hugh J. Reilly of New York, a railroad builder for the Cuban government, were not called. Both were subpoenaed to testify as to contributions they are supposed to have made to Governor Sulzer. They may be placed on the stand in rebuttal. A number of other witnesses were subpoenaed, it is understood, for the same purpose.

The final shot of the managers before resting was the testimony of John D. Colwell, member of the brokerage firm of Miller & Gray, which handled the famous "account No. 5607" of Frederick L. Colwell, the governor's alleged agent.

Colwell said that this account was Governor Sulzer's. Gray also said that he had contributed through Colwell to the governor's campaign fund upon a representation that it would bring him business, and at one time Colwell said a bond was purchased for the governor.

The broker declared that he could not recall the name of the woman. No testimony was added from the witness, who was called to the stand to see if anything to do with the designation of the account as "No. 5607."

"Mysterious Woman" Eliminated. Attorneys for the managers expressed themselves tonight as well pleased with the direct testimony of John D. Colwell, which they said was all in all to Attorney Isidor J. Kresel said that no further effort would be made to locate the "mysterious woman" in the case. She is Miss Beale Colwell, a relative of Frederick L. Colwell. The board of managers wanted her to testify regarding the whereabouts of Colwell, but they also intended to question her as to her knowledge of his stock deals for the governor.

"Council for the board is satisfied," said Kresel. "We feel that we have shown almost everything we promised. Some ground which was left open, we are going to go over on re-direct examination."

Sarecky Hostile to Prosecution. "Why did we not call Sarecky?" he was asked. "He is called by the defense. When he is called by the defense, if he ever is, we shall question him. We shall also interrogate Colwell at length if he is called."
